

World-Check and SDG Software Technologies Announce a Strategic Partnership to Deliver World-Check's KYC Intelligence to Financial Institutions.

Singapore, November 24 2005 - World-Check (GLOBAL OBJECTIVES LTD) is delighted to announce that SDG Software Technologies (SDG) is fully compatible and capable of delivering World-Check's critical intelligence to institutions that need to automate their Know Your Client (KYC) and Politically Exposed Persons (PEP) screening processes.

Through SDG Software's BankAlert solution, the highly structured World-Check datafile is efficiently incorporated so that the entire screening process, from end-to-end, is automated.

"The need of the hour is a comprehensive yet cost-effective compliance tool as banks and other financial institutions prepare to comply with increasingly more stringent anti-money laundering legislation across the globe" said Mr. Suheim Sheikh, The Managing Director of SDG Software. "BankAlert is an early warning system that enables banks and financial institutions to isolate Out of Profile transactions and generate a host of useful Reports," he stated. "World-Check's industry-leading approach to politically exposed persons (PEP) identification and their wealth of researched data adds fuel to BankAlert to run the extra mile in fight against terrorism"

Speaking from London, Mr. David Leppan, CEO & Founder of World-Check, said, "World-Check recognizes SDG Software's strengths, specially in the area of KYC screening, and we are delighted to work together with SDG who were the first company to install an AML solution in India".

About World-Check:

World-Check – Intelligence Service to the Financial Community

World-Check assists institutions in mitigating reputational, financial and compliance risk by monitoring and correlating information on high-risk entities. World-Check provides risk reduction intelligence to more than 1,500 institutions in more than 120 countries. World-Check's highly structured datafile of intelligence allows financial institutions to very efficiently screen their new and existing customers for risk on a routine basis. Recognized as an industry pioneer, World-Check has revolutionized and "standardized" global Know Your Customer (KYC) and Politically Exposed Person (PEP) screening and risk mitigation. Today, 18 of the world's top 20 banks, and more than 200 regulatory and government agencies use World-Check's global list of heightened-risk individuals and organizations.

About SDG Software Technologies Limited

SDG is one of the pioneers in developing Anti-Money Laundering (AML) Solution in India. Its main focus has been the banking and financial services industry. BankAlert, an AML, Regulatory Compliance and Business Intelligence software is the latest addition to its suite of products and is targeting the emerging global opportunity in this space.

BankAlert incorporates SDG's rich experience in the surveillance/fraud detection domain and technology expertise in building highly scalable solutions over large databases and huge transaction volumes. BankAlert will enhance capabilities of Banks' compliance team to detect Fraud & Money Laundering instances.

The company's BankAlert bagged the special jury award instituted by the Hyderabad Software Exporters Association where the jury was headed by consultants, Ernst & Young.

This product helps banks detect fraud and money laundering instances by closely monitoring transaction patterns, design their KYC programme, check against patterns while meeting the challenge of complying with growing regulatory requirements and automate the reporting process.

SDG offers a wide range of products catering to Capital Markets automation that includes front-end trading systems, real time risk management system, back office accounting and Internet trading systems.
